NOTICE OF ACTIONS – ACCREDITATION-PROBATION STATUS (6.1.2018)

The ARC-PA took the actions displayed below at its September 10-12, 2015, March 10-12, July 16 and September 9-11, 2016, and January 21, March 9-11, July 22, and September 7-9, 2017 and March 8-10, 2018 meetings. The accreditation decisions were based on the programs’ compliance with the accreditation Standards or adherence to ARC-PA policies for accredited programs.

All accredited programs are required to file annual and periodic reports to document continuing compliance with the accreditation Standards throughout the accreditation cycle. Programs that received citations from the commission are required to submit a report describing the manner in which the citation(s) have been addressed or resolved.

The programs, all with the status of Accreditation-Probation (as defined below), are listed in alphabetical order by state.

**Accreditation-Probation** is a temporary status of accreditation, limited to two years, granted when a program holding an accreditation status of Accreditation-Provisional or Accreditation-Continued does not meet the Standards and when the capability of the program to provide an acceptable educational experience for its students is threatened. Once placed on probation, a program that fails to comply with accreditation requirements in a timely manner, as specified by the ARC-PA, may be scheduled for a probation site visit and/or risk having its accreditation withdrawn.

A focused probation site visit is scheduled to occur in advance of the commission meeting identified under Next Validation Review. This visit will evaluate the program and institutional progress in addressing specific Standards related problem(s) identified during the course of the most recent commission review of the program.

For definitions of all accreditation statuses see [http://www.arc-pa.org/accreditation-statuses/](http://www.arc-pa.org/accreditation-statuses/)

For a complete listing of all accredited programs or for information about specific programs, see [http://www.arc-pa.org/accreditation/accredited-programs/](http://www.arc-pa.org/accreditation/accredited-programs/)

---

**THE FOLLOWING LIST REFLECTS RESULTS OF ACCREDITATION ACTIONS FOR CURRENTLY ACCREDITED PROGRAMS INCLUDING COMMENTARY REGARDING PROGRAM-SPECIFIC REPORTS TO THE COMMISSION DESCRIBING THE MANNER IN WHICH THE CITATION(S)¹ HAVE BEEN ADDRESSED OR RESOLVED.**

PA Program at: University of Kentucky, KY

Report due for standards related to:

- the sponsoring institution supporting the planning by program faculty of curriculum design and program assessment,
- the program director providing effective leadership and management,
- all instructional faculty serving as supervised clinical practice experience (SCPE) preceptors holding a valid license,
- the program defining, publishing and making readily available to students upon admission academic performance and progression information to include completion deadlines related to curricular components,
- the program publishing and making readily available to students upon admission academic performance and progression information to include policies and procedures for deceleration,
- SCPEs in preventive, emergent, acute and chronic patient encounters that enable students to meet program learning outcomes,
- SCPEs with patients seeking medical care across the life span, women’s health, care for conditions requiring surgical management and care for behavioral and mental health conditions,
- SCPEs with preceptors practicing in the disciplines of internal medicine, general surgery, pediatrics, ob/gyn, and behavioral and mental health care,
- applying the results of ongoing program self-assessment to the curriculum and other dimensions of the program,
- a self-study that documents results of critical analysis from the ongoing self-assessment and faculty evaluation of the curricular and administrative aspects of the program, and
- conducting and documenting a summative evaluation of each student within the final four months of the program to verify each student is prepared to enter practice.

University of Kentucky, KY

Report due for standards related to:

- the sponsoring institution complying with ARC-PA accreditation Standards and policies,
- principal faculty sufficient in number to meet the academic needs of enrolled students,
- the program director providing effective leadership and management and being knowledgeable about and responsible for program participation in the accreditation process,
- the program curriculum including instruction in prevention of medical errors and risk management,
- supervised clinical practice experiences (SCPEs) in preventive, emergent, acute and chronic patient encounters that enable students to meet program expectations and acquire the competencies needed for entry into clinical PA practice,
- SCPEs with patients seeking medical care across the life span, women’s health and care for behavioral and mental health

conditions,
- implementing an ongoing program self-assessment process,
- applying the results of ongoing program self-assessment,
- a self-study that documents results of critical analysis from the ongoing self-assessment, faculty evaluation of the curricular and administrative aspects of the program, modifications that occurred as a result of self-assessment, self-identified program strengths and areas in need of improvement and plans for addressing areas needing improvement, and
- maintaining and documenting an effective process for the ongoing evaluation of all sites and preceptors used for SCPEs.

### Louisiana State University Health Sciences Center Shreveport, LA

**Probation**

Report due for standards related to:
- the sponsoring institution supporting the faculty in program assessment,
- announcements and advertising accurately reflecting the program,
- publishing and making available to enrolled and prospective students the program’s ARC-PA accreditation status, all required curricular components, academic credit offered and estimates of all costs related to the program,
- publishing and making available to prospective students admission-related information to include admissions and enrollment practices that favor specified individuals or groups (if applicable), admission requirements regarding prior education or work experience, policies and procedures concerning awarding or granting advanced placement, any required academic standards for enrollment and any required technical standards for enrollment,
- admission decisions made in accordance with clearly defined and published practices of the institution and program,
- instructional objectives that guide student acquisition of required competencies,
- implementing an ongoing self-assessment process that documents program effectiveness and fosters program improvement,
- a self-study report that documents results of critical analysis from the ongoing self-assessment, faculty evaluation of the curricular and administrative aspects of the program and modifications that occurred as a result of self-assessment, and
- evidence that the program was actively recruiting to fill a vacated faculty position

### Grand Valley State University, MI

**Probation**

Report due for standards related to:
- the program director being knowledgeable about and responsible for program continuous review and analysis,
- implementing an ongoing self-assessment process that documents program effectiveness and fosters program improvement, and
- a self-study report that documents results of critical analysis from

--- | --- | ---
Baldwin Wallace University, OH | Probation | September 2018

Report due for standards related to:
- the policy on influenza immunization of students based on current CDC recommendations for health professionals,
- the program publishing and making readily available to students the success of the program in achieving its goals, estimates of all costs related to the program and policies related to student employment while enrolled in the program,
- supervised clinical practice experiences (SCPEs) in preventive, emergent, acute and chronic patient encounters that enable students to meet program expectations and acquire the competencies needed for entry into clinical PA practice,
- SCPEs with patients seeking women’s health,
- the program implementing an ongoing self-assessment process and
- the self-study report documenting results of critical analysis from the ongoing self-assessment and faculty evaluation of the curricular and administrative aspects of the program.

Cuyahoga Community College/Cleveland State University, OH | Probation | N/A

Action based on standards related to:
- the sponsoring institution supporting the program faculty in program assessment, complying with ARC-PA accreditation Standards and policies and providing the program with the human resources necessary to operate the educational program and fulfill
obligations to matriculating and enrolled students,

• all faculty possessing educational and experiential qualifications to perform assigned duties,

• at least two FTE principal faculty positions filled by PA faculty currently NCCPA certified,

• a sufficient number of principal faculty to meet the academic needs of enrolled students,

• principal faculty and the program director actively participating in the processes of developing, reviewing and revising the mission statement for the program, assuring the availability of remedial instruction and designing, implementing, coordinating and evaluating the curriculum,

• the interim program director providing effective leadership and management, participating in the accreditation process and supervising principal faculty,

• reliance on resident physicians for didactic or clinical instruction,

• instructional faculty serving as supervised clinical practice experience (SCPE) preceptors holding a valid license,

• PA students not required to work for the program, not substituting for or functioning as instructional faculty and not substituting for clinical or administrative staff during SCPEs,

• the program publishing to enrolled and prospective students its success in achieving its goals and all required clinical curricular components,

• the program making admission decisions in accordance with published practices,

• the program defining, publishing and making readily available to students upon admission the policies and procedures for remediation,

• student files including documentation that the student has met published admission criteria, health screening and immunization requirements, remediation efforts and outcomes and program requirements for program completion,

• principal faculty records including current curriculum vitae,

• the curriculum being consistent with the mission and goals of the program and of sufficient breadth and depth to prepare the student for the clinical practice of medicine, including instruction about intellectual honesty and appropriate academic and professional conduct and preparing students to work collaboratively in interprofessional patient centered teams or apply these principles in interprofessional teams,

• instruction in patient safety, quality improvement, prevention of medical errors or risk management,

• SCPEs in preventive, emergent, acute and chronic patient encounters that enable students to meet program expectations and acquire the competencies needed for entry into clinical PA practice,

• SCPEs with patients seeking medical care across the life span, women’s health, conditions requiring surgical management and care for behavioral and mental health conditions,

| Heritage University, WA        | Probation            | September 2018         |
| Report due for standards related to: |                      |                        |
| • documentation between the sponsoring institution and the other institution with which it shares educational resources, |                      |                        |
| • the sponsoring institution complying with ARC-PA accreditation Standards and policies, |                      |                        |
| • sufficient number of principal faculty to meet academic needs of students, |                      |                        |
| • the program director providing effective leadership and management and demonstrating knowledge of, or responsibility for, the program’s continuous review and analysis, |                      |                        |
| • the program publishing and making readily available to enrolled and prospective students first time PANCE rates for the five most recent graduating classes, |                      |                        |
| • supervised clinical practice experiences (SCPEs) in preventive, emergent, acute and chronic patient encounters that enable students to meet program expectations and acquire the competencies needed for entry into clinical PA practice |                      |                        |
| • SCPEs with patients seeking medical care across the life span, women’s health, care for conditions requiring surgical management and care for behavioral and mental health conditions, |                      |                        |
| • implementing an ongoing program self-assessment process designed to document program effectiveness and foster program improvement, |                      |                        |
| • applying the results of ongoing program self-assessment to the curriculum and other dimensions of the program, |                      |                        |
| • a self-study report that documents results of critical analysis from ongoing self-assessment, faculty evaluation of the administrative aspects of the program, modifications that occurred as a result of self-assessment, self-identified program strengths and areas in need of improvement and plans for addressing areas needing improvement, |                      |                        |
PA Program at:

- the program monitoring the progress of each student in a manner that promptly identified deficiencies in knowledge or skills, and
- conducting and documenting a summative evaluation of each student within the final four months of the program that verifies each student is prepared to enter clinical practice.

1 A citation is a formal statement referenced to a specific standard noting the area in which the program failed to provide evidence demonstrating that it meets the standard, or performs so poorly in regard to the standard that the efforts of the program are found to be unacceptable.

2 Accreditation-Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program’s ability to meet the ARC-PA Standards or when a program holding accreditation-provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class. Accreditation-Provisional remains in effect until the program achieves Accreditation-Continued after its third review, closes or withdraws from the accreditation process, or until accreditation is withdrawn for failure to comply with the Standards.

3 Accreditation-Probation is a temporary status of accreditation, limited to two years, granted when a program holding an accreditation status of accreditation-provisional or accreditation-continued does not meet the Standards and when the capability of the program to provide an acceptable educational experience for its students is threatened. Once placed on probation, a program that fails to comply with accreditation requirements in a timely manner, as specified by the ARC-PA, may be scheduled for a probation site visit and/or risk having its accreditation withdrawn.
