March 2018
The commission accepted the report addressing 4th edition

- **Standard B1.05** (provided evidence of the curriculum including instruction in intellectual honesty and appropriate academic conduct),
- **Standard B1.09** (provided evidence for each clinical course, the program defines and publishes instructional objectives that guide student acquisition of required competencies),
- **Standard B2.12** (provided evidence the program curriculum includes instruction in disease prevention and disease surveillance, reporting and intervention),
- **Standard B3.02** (provided evidence that supervised clinical practice experiences [SCPEs] enable students to meet program expectations and acquire competencies needed for entry into clinical practice),
- **Standards B3.03a-d** (provided evidence that SCPEs enable each student to meet program expectations and acquire competencies needed for entry into clinical practice with patients seeking a) medical care across the life span, b) women’s health, c) surgical management and d) behavioral and mental health conditions) and
- **Standard D1.04** (provided evidence of a complete curriculum for the clinical year). No further information requested.

September 2017
Accreditation-Provisional; Next Comprehensive Evaluation: March 2020 (Provisional Monitoring). The program is approved for up to 24 students in the first class of students, 30 in the second class and 30 in the third class.

Report due November 23, 2017 (*Standards, 4th edition* -

- **Standard B1.05** (lacked evidence of the curriculum including instruction in intellectual honesty and appropriate academic conduct),
- **Standard B1.09** (lacked evidence for each clinical course, the program defines and publishes instructional objectives that guide student acquisition of required competencies),
- **Standard B2.12** (lacked evidence the program curriculum includes instruction in disease prevention and disease surveillance, reporting and intervention),
- **Standard B3.02** (lacked evidence that supervised clinical practice experiences [SCPEs] enable students to meet program expectations and acquire competencies needed for entry into clinical practice),
- **Standards B3.03a-d** (lacked evidence that SCPEs enable each student to meet program expectations and acquire competencies needed for entry into clinical practice with patients seeking a) medical care across the life span, b) women’s health, c) surgical management and d) behavioral and mental health conditions) and
- **Standard D1.04** (lacked evidence of a complete curriculum for the clinical year).
