Morehouse School of Medicine
Accreditation History

First accredited: September 2018
Next review: September 2023
Maximum class size: 40
Page 1 of 3

September 2021 (following Provisional Monitoring review)
Accreditation-Provisional; Next Comprehensive Evaluation: September 2023 (Final Provisional). The maximum approved class size is 40 students per class.
Report due February 15, 2022 (Standards, 5th edition) -

- **Standard B2.07b** (lacked evidence the curriculum includes instruction in performing focused physical examinations),
- **Standard B2.08a** (lacked evidence the curriculum includes instruction in medical care for adults) and
- **Standard B2.17c, e** (lacked evidence the curriculum includes instruction in the c) laws and regulations regarding professional practice and conduct and e) PA relationship with the physician).

No report due (Standards, 5th edition) -

- **Standard A3.01** (lacked evidence program policies apply to all students, principal faculty and the program director; corrected subsequent to the visit),
- **Standard A3.07a** (lacked evidence the program implements a current policy on immunization of students based on current Centers for Disease Control recommendations for health professionals; corrected subsequent to the visit),
- **Standard A3.12f** (lacked evidence the program defines and makes readily available to prospective students estimates of all costs [tuition, fees, etc.] related to the program; corrected subsequent to the visit),
- **Standard A3.15b** (lacked evidence the program consistently defines deadlines for progression in and completion of the program to enrolled students; corrected subsequent to the visit),
- **Standard B3.06a** (lacked evidence supervised clinical practice experiences occur with physicians who are specialty board certified in their area of practice; corrected subsequent to the visit),
- **Standard C1.02.c-i-iii** (lacked evidence the program implements its ongoing self-assessment process by c) applying the results leading to conclusions that identify i) program strengths, ii) program areas in need of improvement and iii) action plans; program will provide evidence at the final provisional accreditation site visit) and
- **Standard C1.03** (lacked evidence the program consistently provides documentation of the application and results of ongoing program self-assessment; program will provide evidence at the final provisional accreditation site visit).

March 2021
The commission acknowledged the report providing evidence of

- Update regarding changes in response to COVID-19. No further information requested.

September 2020
The commission acknowledged the report providing evidence of
First accredited: September 2018
Next review: September 2023
Maximum class size: 40

- Updated documentation regarding changes in response to COVID-19. No further information requested.

The program received an alert through the Program Management Portal that the number of students exceeded the maximum entering class size. The program submitted the required Exceeding Class Size report. The commission accepted the report. No further information requested.

June 2020
The commission acknowledged the report providing evidence of
- The proposed plan in response to COVID-19. No further information requested.

September 2019
The commission accepted the report addressing 4th edition
- Standards B3.03a-c (provided evidence of methods to determine, after supervised clinical practice experiences, that all students are able to meet the program’s learning outcomes with patients seeking a) medical care across the life span, b) women’s health and c) surgical management). No further information requested.

March 2019
The commission accepted the report addressing 4th edition
- Standard A3.10 (provided evidence of written policies that provide for timely access and/or referral of students to services addressing personal issues which may impact their progress in the PA program),
- Standard B1.08 (provided evidence the program curriculum includes opportunities for students to apply principles of interprofessional practice in interprofessional teams),
- Standard B2.02c (provided evidence the program curriculum includes instruction in pathophysiology and its application in clinical practice),
- Standard B2.14 (provided evidence the program curriculum includes instruction about PA licensure and credentialing) and
- Standard D1.05 (provided evidence the program has detailed syllabi for each course offered in the program). No further information requested.

September 2018
Accreditation-Provisional; Next Comprehensive Evaluation: September 2021 (Provisional Monitoring).
The program is approved for up to 20 students in the first class of students, 30 in the second class and 40 in the third class.
Report due December 3, 2018 (Standards, 4th edition) -
- Standard A3.10 (lacked evidence of written policies that provide for timely access and/or referral of students to services addressing personal issues which may impact their progress in the PA program),
- Standard B1.08 (lacked evidence the program curriculum includes opportunities for students to apply principles of interprofessional practice in interprofessional teams),
