- The program's methods of assessment in supervised clinical practice experiences monitored and documented the progress of each student in a manner that would promptly identify deficiencies in knowledge or skills in the specific program defined learning outcomes in a timely manner.
- A self-assessment process that provided evidence of performance of critical analysis of data and applying results of analysis leading to conclusions that identified program strengths, areas in need of improvement, and action plans.
- A self-study report that effectively documented the program's process of ongoing data analysis and linked the data analysis to data-driven conclusions with subsequent identification of program strengths, areas in need of improvement, and action plans.
- Submission of the continuing application and associated documents as required.
- Maintenance of program's information in the ARC-PA Program Management Portal.

The commission noted 16 areas of noncompliance with the *Standards*. A focused probation visit will occur in conjunction with the final provisional visit in advance of the September 2026 commission meeting. The program's maximum class size remains 44. The program did not appeal the commission's decision.
