¹A **citation** is a formal statement referenced to a specific standard noting the area in which the program failed to provide evidence demonstrating that it meets the standard, or performs so poorly in regard to the standard that the efforts of the program are found to be unacceptable.

²Accreditation-**Provisional** is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA *Standards* or when a program holding accreditation-provisional status appears to demonstrate continued progress in complying with the *Standards* as it prepares for the graduation of the first class (cohort) of students. Accreditation-Provisional does not ensure any subsequent accreditation status. It is limited to no more than five years from matriculation of the first class. Accreditation-Provisional remains in effect until the program achieves Accreditation-Continued after its third review, closes or withdraws from the accreditation process, or until accreditation is withdrawn for failure to comply with the *Standards*.

³Accreditation-**Probation** is a temporary accreditation status initially of not less than two years. However, that period may be extended by the ARC-PA for up to an additional two years if the ARC-PA finds that the program is making substantial progress toward meeting all applicable standards but requires additional time to come into full compliance. Accreditation-Probation is granted when a program holding an accreditation status of Accreditation-Provisional or Accreditation-Continued does not, in the judgement of the ARC-PA meet the *Standards* or when the capability of the program to provide an acceptable educational experience for its students is threatened. Once placed on probation, a program that fails to comply with accreditation requirements in a timely manner, as specified by the ARC-PA, may be scheduled for a focused site visit and is subject to having its accreditation withdrawn.

⁴Accreditation-**Administrative Probation** is a temporary status granted when a program has not complied with an administrative requirement, such as failure to pay fees or submit required reports. Once placed on administrative probation, a program that fails to comply with administrative requirements in a timely manner, as specified by the ARC-PA, may be scheduled for a focused site visit and/or risk having its accreditation withdrawn.
