

Franklin College Accreditation History

First accredited: September 2018

Next review: March 2033

Maximum class size: 24

Page 1 of 2

March 2023

Accreditation-Continued; Next Comprehensive Evaluation: March 2033. The program is approved for a maximum class size of 24.

No report due (commission expects program to submit all reports and documents as required by the ARC-PA with the initial submission):

- **Standard E1.03** (lacked evidence the program submits documents as required by the ARC-PA)

The program's PANCE pass rate percentage was 85% or less for its 2021 and 2022 cohorts. The program submitted the required analysis of PANCE performance. The commission **accepted the report**. No further information requested.

March 2022

The commission **Accepted** the report providing evidence of

- expected learning outcomes for adolescents that must be attained by students at the end of the pediatric SCPE

No further information requested

September 2021

The commission **reviewed and more information requested** from the report addressing 5th edition

- **Standard B2.04** (provided evidence the curriculum includes instruction in interpersonal and communication skills),
- **Standard B3.06a** (provided evidence supervised clinical practice experiences [SCPEs] occur with physicians specialty board certified in their area of instruction) and
- **Standard B4.01b** (lacked evidence student assessment in the supervised clinical practice experience components parallels what is expected of students and taught and identifies deficiencies).

Additional information (expected learning outcomes for adolescents that must be attained by students at the end of the pediatric SCPE) due September 8, 2021.

March 2021 (following Provisional Monitoring review)

Accreditation-Provisional; Next Comprehensive Evaluation: March 2023 (Final Provisional). Maximum class size: 24.

Report due June 1, 2021 (*Standards*, 5th edition) -

- **Standard B2.04** (lacked evidence the curriculum includes instruction in interpersonal and communication skills),
- **Standard B3.06a** (lacked evidence supervised clinical practice experiences [SCPEs] occur with physicians specialty board certified in their area of instruction) and
- **Standard B4.01b** (lacked evidence student assessment in the supervised clinical practice experience components parallels what is expected of students and taught and identifies deficiencies).

No report due (commission expects program to submit all reports and documents as required by the ARC-PA with the initial submission):
