The number of students in the Program Management Portal exceeded the maximum entering class size. The program submitted the required Exceeding Class Size report. The commission **accepted the report**. No further information requested.

June 2025 (following Provisional Monitoring review)

Accreditation-Provisional; Program demonstrates continued progress in complying with the *Standards* as it prepares for the graduation of the first class of students. The commission noted 8 areas of noncompliance with the *Standards* and 1 new observation by the commission.

Next Comprehensive Evaluation: July 2027 (Final Provisional). Maximum class size: 45.

Report due November 10, 2025 (*Standards*, 5th edition):

- **Standard A1.01** (lacked evidence that when more than one institution is involved in the provision of academic and/or clinical education, responsibilities of the respective institutions for instruction and supervision of students are clearly described and documented in a manner signifying agreement by the involved institutions)
- **Standard A3.12d** (lacked evidence the program defines, publishes and makes readily available to enrolled and prospective students general program information to include all required curricular components including required rotation disciplines)
- **Standard B2.10c** (lacked evidence the curriculum prepares students to work collaboratively in interprofessional patient centered teams with instruction that includes application of these principles in interprofessional teams)
- **Standard B3.01** (lacked evidence the program secures clinical sites and preceptors in sufficient numbers to allow all clinical students to meet the program's learning outcomes for supervised clinical practice experiences.)
- **Standard B3.06a** (lacked evidence supervised clinical practice experiences occur with physicians who are specialty board certified in their area of instruction)
- **Standard B3.06c** (lacked evidence supervised clinical practice experiences occur with other licensed health care providers qualified in their area of instruction)
- **Standard B3.07g** (lacked evidence supervised clinical practice experiences occur with preceptors who enable students to meet program defined learning outcomes for behavioral and mental health care)
- **Standard B4.01b** (lacked evidence the program conducts frequent, objective and documented evaluations of student performance in meeting the program's learning outcomes and instructional objectives for both didactic and supervised clinical practice experience components and that allow the program to identify and address any student deficiencies in a timely manner)

Observation response due November 10, 2025 (*Standards*, 5th edition):

- **Standard C2.01b** (lacked evidence the program defines and maintains effective processes and documents the initial and ongoing evaluation of all sites and preceptors used for supervised clinical practice experiences, to ensure students are able to fulfill program learning outcomes with access to patient populations)
