July 2026

Accreditation-Provisional; Program has not yet enrolled students but plans and resource allocation, if fully implemented as planned, demonstrate the probability to meet the ARC-PA *Standards*. The commission noted 2 areas of noncompliance with the *Standards* and one commission observation. Next Comprehensive Evaluation: TBD (Provisional Monitoring). The program is approved for a maximum class size of 40.

Report due October 1, 2026 (*Standards*, 5th edition; program will respond in the 6th):

- **Standard B4.01b** (lacked evidence the program conducts frequent, objective and documented evaluations of student performance in meeting the program's learning outcomes and instructional objectives for both didactic and supervised clinical practice experience components that allow the program to identify and address any student deficiencies in a timely manner)

No report due as the program acknowledged the observation:

- **Standard D1.01b** (lacked evidence that based on the qualifications outlined in the Standards, the program had a medical director appointed by the institution on a permanent basis at least 15 months prior to the date of the scheduled site visit)

Commission observation response due October 1, 2026 (*Standards*, 6th edition):

- **Standard B4.01a** (lacked evidence the program conducts frequent, objective and documented evaluations of student performance in meeting the program's learning outcomes and instructional objectives for both didactic and supervised clinical practice experience components that align with what is expected and taught)
